## BIOGRAPHY

**Bodhi Del Mar (b. 1983, AU) is a multidisciplinary visual artist based on the Gold Coast, Australia.**

After a successful decade as a commercial photographer, Bodhi began her experimental arts practice in 2014.

Her whimsical and metaphorical artworks speak to both her outer and inner world experiences, using colour and symbology to represent the human psyche.

Using photography as her foundation, Bodhi integrates various disciplines seamlessly, including painting, sculpture, cold glass, vinyl, stenciling, and book design.

Currently, Bodhi is immersed in creating a surreal mixed media body of work which delves into both the contemporary neuroscience and her personal experience as a neurodivergent woman.
